EDUCATION

Faculty of Technology and Engineering, MSU Baroda

B.E. in Computer Science Engineering (CGPA: 8.56 / 10.0)

Vadodara, Gujarat

June 2024 – May 2028

Gujarat Secondary and Higher Secondary Education Board (GSEB)

Higher Secondary (Class XII) – Percentage: 89.39%

Vadodara, Gujarat

2024

TECHNICAL SKILLS

Languages: C, C++, Java, SQL

Frameworks & Developer Tools: Node.js, Git, GitHub, VS Code, Google Colab

Databases & Platforms: PostgreSQL, MySQL, Supabase

Core Concepts: Data Structures & Algorithms (DSA), DBMS, Object-Oriented Programming (OOP), OS

PROJECTS

SquadSpot | *React Native, FastAPI, Supabase, SQL*

2026 – Present

- Building an AI-powered trip planner that generates budget- and vibe-customized itineraries with optimized stop ordering and real-time cost breakdowns.
- Architected relationally optimized database schemas and complex SQL queries in Supabase to enable low-latency data fetching for dynamic travel plans.
- Integrated FastAPI backend microservices with a responsive React Native mobile frontend, establishing seamless asynchronous API communication.

Small Language Model (SLM) | *Python, Hugging Face, PyTorch, Google Colab*

Aug. 2025

- Built and fine-tuned a 28.92M-parameter SLM pipeline on 26.9k records during the MSU Internal Hackathon for automated, domain-specific query resolution.
- Engineered efficient training loops in PyTorch, reducing memory overhead and improving batch processing performance on constrained compute environments.
- Awarded INR 3,000 in Google Colab compute credits by evaluators for exceptional model performance and efficient training.

ACHIEVEMENTS

Academic Excellence: Maintained a cumulative CGPA of 8.56 / 10.0 across 4 semesters in Computer Science Engineering.
